

ATCOM

2nd Technical Project Manager Bootcamp

On-site Production Full time
Nea Ionia, Attica, Greece

Description

Ready to see what it takes to drive a technical project from idea to delivery?

Following our first Technical Project Manager Bootcamp, we're back with the **2nd Technical Project Manager Bootcamp at ATCOM**, taking place on **Tuesday, October 6, 2026**.

This **hands-on learning experience** is designed for colleagues who want to build a solid foundation in **Project Management within a technical environment**, understand the role of a **Technical Project Manager** and get closer to the way projects are planned, coordinated and delivered at ATCOM.

What you'll explore...

Throughout the bootcamp, you'll be introduced to:

- The core principles and fundamentals of Project Management
- The role and responsibilities of a Technical Project Manager
- How a project moves from requirements and planning to execution and delivery
- Planning, prioritization and effective time management
- Collaboration between technical, business and client-facing teams
- Stakeholder management and effective communication
- Identifying and managing project risks and challenges
- Practical examples inspired by real-life technical project scenarios

Requirements

Who is it for?

We're looking for **graduates of technical schools, colleges or universities with an educational background in Computer Science, Information Technology or a related technology field**, who are interested in exploring the world of Technical Project Management.

To join the bootcamp, you should:

- Be a **graduate of a technical school, college or university**, with an educational background related to **computers, IT, Computer Science or another relevant technology field**
- Have a genuine interest in **technology and Project Management**
- Enjoy organizing, coordinating and working with different people and teams

- Have strong communication and problem-solving skills
- Be eager to learn how technical and digital projects are structured and delivered
- Be comfortable communicating in **English**

Previous Project Management experience is not required!

What matters most is your technical foundation, curiosity and motivation to develop your skills in Technical Project Management.

More than a Bootcamp. A Career Opportunity.

The **top-performing participants of the bootcamp** will have the opportunity to take the next step and **join ATCOM through a permanent, open-ended employment contract.**

This means that the bootcamp is not only an opportunity to gain practical knowledge and discover the world of Technical Project Management — it could also be the **starting point of your professional journey with ATCOM.**

Bring your technical background, your problem-solving mindset and your willingness to grow.

Your next career move could start here!

Certificate of Participation

Everyone who successfully completes the bootcamp will receive an **ATCOM Certificate of Participation**, recognizing their attendance and introduction to the fundamental principles of Project Management.

Save the date

 **Tuesday, October 6, 2026**

 **ATCOM**

If you have a technical background and feel that your next step could combine **technology, people, organization and project delivery**, this could be the opportunity to explore the Technical Project Manager path.

Think you might have the TPM mindset?
