Join **Infopad**: Shaping the Future of Insurance Technology

At **Infopad**, we don't just build software—we revolutionize the insurance industry. As a leading software house specializing in innovative insurance solutions, we empower companies to streamline operations, enhance customesr experiences, and stay ahead in a competitive market.

Our team thrives at the intersection of technology and insurance expertise, developing cutting-edge tools that simplify complex processes and drive real results.

We're looking for passionate, forward-thinking professionals to join us on this journey. If you're ready to make an impact and help shape the future of insurance technology, **Infopad** is the place for you.

We Are Hiring: Full Stack Developer

Job Requirements:

  Proficiency with the .NET Platform (VB.NET, C# .NET)
  Knowledge of Windows Forms Applications
  Expertise in Angular v.17 (or later), TypeScript, HTML, and CSS
  Strong understanding of RESTful APIs—implementation and maintenance
  Experience working with MS SQL Server as an RDBMS
  Familiarity with version control systems, especially GitHub
  Ability to provide suggestions on UX enhancement techniques
  Skills in troubleshooting and supporting production platforms
  Good command of the English language

General Requirements:

  A degree in Computer Science, Software Engineering, or a related field
  Proven experience in software development, preferably in the insurance or fintech sector
  Strong problem-solving skills and the ability to think critically in a fast-paced environment
  Solid understanding of software development methodologies (Agile/Scrum)
  Excellent communication and teamwork abilities
  Passion for innovation and continuous learning

Nice to Have:

  Familiarity with insurance systems, underwriting, or claims management software
  Experience in AI, machine learning, or data analytics
  Knowledge of cybersecurity best practices
