Opportunities

If you are ready to ask the big questions, to work to make technology better, and push the edge on innovation, let's make it happen together. At Microsoft we offer you the opportunity to start your global career. With a presence in 190 countries you have the chance to impact users around the world.

Software Engineers at Microsoft are passionate about building technologies that make the world a better place. Work on software applications and services for consumers, gamers, developers, or large enterprise customers. Our teams touch all levels of the stack, so you will find the technology that excites you. Your efforts on the design, development, and testing of next-generation applications will have an impact on millions of people.
